Journal of Radioanalytical and Nuclear Chemistry, Articles, Vol. 179, No. 2 (1994) 385–388

Index to Volume 179

No. 1

Professor Robert E. Jervis 5

Nuclear Analytical Techniques

J. J. M. de Goeij, P. Bode (Delft, The Netherlands)
How to make nuclear methods the choice of a new generation of scientists? 7

F. Grass, H. Holzner, A. Ritschel, S. S. Ismail, J. Dorner (Wien, Austria)
Short-time activation analysis with and without a ^{6}LiD converter 13

V. L. Spate, J. S. Morris, C. K. Baskett, M. M. Mason, C. L. Reams, D. Hunter, W. C. Willett (Columbia, Missouri, USA)
Determination of fluoride in human nails via cyclic instrumental neutron activation analysis 27

N. N. Papadopoulos, N. F. Tsagas (Athens and Xanthi, Greece)
Rapid nondestructive isotopic uranium analysis by neutron activation delayed neutron counting 35

G. P. Westphal (Vienna, Austria)
Refining a high rate gamma spectrometry system 45

G. P. Westphal (Vienna, Austria)
Correction of counting losses of the preloaded filter pulse processor 55

R. Zeisler, R. Demiralp, M. Makarewicz (Vienna, Austria and Gaithersburg, MD, USA)
High count rate gamma spectrometry. A summary of recent experiments in high accuracy NAA applications 61

S. Landsberger (Urbana, Illinois, USA)
Compton suppression neutron activation methods in environmental analysis 67

K. S. Park, N. B. Kim, H. J. Woo, K. Y. Lee, Y. Y. Yoon, W. Hong (Daejeon, Korea)
Determination of impurities in niobium metal by a radiochemical activation analysis 81

Quality Assurance

K. Heydorn, E. Damsgaard (Roskilde, Denmark)
Utilization of k_o-factors for quality assurance in neutron activation analysis 87

F. De Corte, F. Bellemans, P. De Neve, A. Simonits (Gent, Belgium, and Budapest, Hungary)
The use of a modified Westcott-formalism in the k_o-standardization of NAA: The state of affairs 93

S. O. Yusuf, R. F. Fleming (Ann Arbor, Michigan, USA)
Direct measurement of k_o for monitor neutron activation analysis 105

H. Petri, G. Erdmann (Jülich, Germany)
NAA with gamma-line related (k_o) and isotope related (k_i) analytical factors 113

Elsevier Science S. A., Lausanne
Akadémiai Kiadó, Budapest

Tian Weizhi, Ni Bangfa (Beijing, P. R. China)
Further study on parametric standardization in reactor NAA 119

R. R, Greenberg (Gaithersburg, MD, USA)
Accuracy in standards preparation for neutron activation analysis 131

P. Bode, J. P. J. Van Dalen (Delft, The Netherlands)
Accreditation: A forthcoming prerequisite, also for neutron activation analysis laboratories?! 141

Reference Materials

D. A. Becker, D. L. Anderson, R. M. Lindstrom, R. R. Greenberg, K. M. Garrity, E. A. Mackey (Gaithersburg, MD, USA)
Use of INAA, PGAA, and RNAA to determine 30 elements for certification of an SRM: Tomato Leaves, 1573a 149

D. Wu, S. Landsberger (Urbana, IL, USA)
Comparison of NAA methods to determine medium-lived radionuclides in NIST soil standard reference materials 155

M. A. Gouveia, M. I. Prudêncio, J. S. Barros, I. Morgado, J. M. P. Cabral (Sacavém and Lisboa, Portugal)
Elemental concentration data for USGS Geochemical Exploration Reference Materials GXR-1 to GXR-4 and GXR-6 165

G. Solano, S. A. Katz, J. Holzbecher, A. Chatt (Camden, NJ, USA and Halifax, N. S., Canada)
An attempt to prepare and characterize a soil reference material for Cr(VI) and Cr(III) 173

A. C. Beach, N. M. Spyrou (Guildford, Surrey, UK)
Combined photon transmission tomography and PIXE analysis for representative sampling and testing matrix homogeneity 177

No. 2

Nuclear Analytical Methods in Atmospheric Pollution Studies

E. A. Oluyemi, O. I. Asubiojo, A. F. Oluwole, C. J. N. Toussaint (Ile-Ife, Nigeria and Ispra, Italy)
Elemental concentrations and source identification of air particulate matter at a Nigerian site: A preliminary study 187

J. A. Adejumo, I. B. Obioh, O. J. Ogunsola, F. A. Akeredolu, H. B. Olaniyi, O. I. Asubiojo, A. F. Oluwole, O. A. Akanle, N. M. Spyrou (Ile-Ife, Nigeria and Guildford, Surrey, UK)
The atmospheric deposition of major, minor and trace elements within and around three cement factories 195

M. Polasek, R. E. Jervis (Toronto, Canada)
Elements in car and truck tires and their volatilization upon incineration 205

Nuclear Analytical Methods in Hydrospheric Pollution Studies

J. T. van Elteren, H. A. Das, C. L. De Ligny, J. Agterdenbos, D. Bax (Petten and Utrecht, The Netherlands)
Arsenic speciation in aqueous samples using a selective As(III)/As(V) preconcentration in combination with an automatable cryotrapping hydride generation procedure for monomethylarsonic acid and dimethylarsinic acid 211

S. J. Yeh, J. C. Wei, C. N. Ke, C. Y. Yang (Hsinchu, Taiwan, R. O. C.)
Determination of trace elements in surface water by neutron activation analysis 221

A. P. Grimanis, Maria Vassilaki-Grimani, N. Kalogeropoulos (Attiki, Greece)
Pollution studies of silver and antimony in Saronikos Gulf, Greece by INAA 231

G. Bidoglio, T. G. Cole, M. Soupioni, M. Garcia Gutierrez, A. Yllera De Llano (Ispra, Italy, Patras, Greece and Madrid, Spain)
Advective and diffusive transport of trace metals in soil-water systems as studied by radiotracer methodologies 243

E. A. N. Fernandes, E. S. B. Ferraz, H. Oliveira (Piracicaba, Brazil)
Trace elements distribution in the Amazon floodplain soils 251

R. C. Orlando, E. A. N. Fernandes, M. Szikszay (Piracicaba and São Paulo, Brazil)
Trace elements in a profile of the unsaturated zone of the São Paulo Basin 259

P. I. Beazley, R. R. Rao, A. Chatt (Halifax, N. S., Canada)
Preconcentration neutron activation analysis of trace elements in surface waters by coprecipitation with pyrrolidinedithiocarbamate in the presence of Bi(III) 267

A. M. Yusof, Z. B. Ikhsan, A. K. H Wood (Johor Bahru and Bangi, Malaysia)
The speciation of arsenic in seawater and marine species 277

Nuclear Analytical Methods in Biology and Medicine

N. M. Spyrou (Guildford, Surrey, UK)
Tomography and elemental analysis using neutrons in transmission 285

V. Y. Zaichick (Obninsk, Russia)
Instrumental activation and X-ray fluorescent analysis of human bone in health and disease 295

L. Robinson, F. F. Dyer, D. W. Combs, J. W. Wade, N. A. Teasley, J. E. Carlton, A. L. Ondracek, J. R. Stokely (Oak Ridge, TN and West Lafayette, IN, USA)
Determination of Hg and other trace elements in soil using neutron activation analysis 305

V. L. Spate, M. M. Mason, C. L. Reams, C. K. Baskett, J. S. Morris, D. S. Mills (Columbia, MO, USA)
Determination of total and bound Se in sera by INAA 315

C. K. Baskett, V. L. Spate, M. M. Mason, C. L. Reams, J. S. Morris (Columbia, MO, USA)
The determination of selenium in urine 323

L. Tandon, B.-F. Ni, X. X. Ding, W. D. Ehmann, E. J. Kasarskis, W. R. Markesbery (Lexington, KY, USA)
RNAA for arsenic, cadmium, copper, and molybdenum in CNS tissues from subjects with age-related neurodegenerative diseases 331

H. Robotham, M. Wong, C. Thompson, M. Golden (Kingston, Jamaica)
The identification of geophagia by neutron activation analysis 341

W. Arshed, O . A. Akanle, N. M. Spyrou (Guildford, Surrey, UK)
The distribution of fluorine and other elements in teeth using proton induced reaction analysis techniques 349

A. Al-Hashimi (Toronto, Ontario, Canada)
Trace elements in the hair of new-born infants by INAA 357

V. P. Guinn, M. Gavrilas-Guinn, R. Demiralp (College Park and Gaithersburg, Maryland, USA)
Measurement of arsenic in sectioned hair samples by instrumental neutron activation analysis 365

M. B. A. Vasconcellos, M. Saiki, G. Paletti, R. M. M. Pinheiro, R. G. Baruzzi, R. Spindel (São Paulo, Brasil)
Determination of mercury in head hair of Brazilian populational groups by neutron activation analysis 369

Jingxin Sun, Hang Zhao, Yuqi Wang (Beijing, China)
Study on the contents of trace rare earth elements and their distribution in wheat and rice samples by RNAA 377
